

THE POWER YOU LIVE BY

Caterpillar® Marine Generator Sets

MAK

CAT®

Broadest Product Line – Single Source Support.

Even on a good day, you have enough on your mind without worrying about the reliability of your marine generator sets. They need to perform day in and day out – plain and simple.

With over 80 years of marine power experience behind them, Caterpillar marine generator sets are built to provide dependable, efficient service under extreme conditions.

They combine proven designs and manufacturing methods with the latest technology, such as advanced electronic control, to deliver more power and greater efficiency, while offering enhanced monitoring capabilities.

So even when your day turns out to be less than perfect, you can count on Caterpillar to deliver the power you live by.

Power to supply all your

High-speed Engines

Medium-speed Engines

CATERPILLAR MARINE GENERATOR SETS

- Built marine tough
- Simple connections
- Broadest line in the industry
- Models from 11 to 7,680 kW available for everything from pleasure craft to heavy-duty commercial vessels
- Heat exchanger, keel, and radiator cooling options available
- Same technology as our propulsion engines
- Single source for gensets and propulsion engines
- Designed for maximum performance and outstanding fuel efficiency

FACTORY MCS CERTIFIED PACKAGES

- Emergency and prime power
- 100 percent Caterpillar designed and supported
- Same long life as propulsion engines
- Worldwide warranty coverage
- Single point of contact for installation and product support
- Simplifies MCS site approval
- Readily available

■ **3500B**

5,530-7,680 kW
6,912-9,600 kVA

needs from 11 to 7,680 kW.

*Heavy Fuel Ready

ACERT™ Technology

Compliance with emissions regulations is critical. ACERT™ Technology provides the answers for today's regulations, as well as the regulations to come.

ACERT TECHNOLOGY FROM CATERPILLAR

- Precisely manages the combustion process
- Is capable of meeting future emissions standards
- Dramatically enhances performance for fast starts, stable operation, and high power output
- Sets the standard for fuel economy
- Requires no external emissions reduction devices
- Reduces vibration
- Features a broad range of ratings

ACERT TECHNOLOGY FOR MARINE ENGINES

- Provides options for future emissions reduction regulations
- Allows for incorporating only those elements needed today through its building block components
- Includes building block technologies with significant advancements in fuel delivery, electronics, air management, and combustion chamber design
- Avoids complications from water injection systems and urea-based catalysts
- Provides flexible solutions for the entire Caterpillar and MaK product lines

MORE BENEFITS OF ADVANCED ELECTRONIC CONTROL

- Easily adapts to changing electrical loads
- Engine speed is consistent, for quality electric power
- Engine load sharing can be accomplished without additional components
- Broad range of engines compliant with International Maritime Organization (IMO) and EPA emissions regulations

Advanced Monitoring Systems

Along with their performance benefits, Cat® engines offer the advantage of advanced electronic monitoring systems. These allow the user to see how the engine is performing at a glance, resulting in top productivity and efficiency.

CAT® ELECTRONIC MODULAR CONTROL PANEL

The optional Cat Electronic Modular Control Panel (EMCP) is an innovative engine monitoring and display system. The EMCP combines advanced monitoring capabilities and critical safety features into one user-friendly system.

MARINE CLASSIFICATION SOCIETIES APPROVED PACKAGES

Caterpillar offers generator sets packaged and approved by major Marine Classification Societies. Packaged at the factory, these generator sets eliminate “re-packaging” at the dealer or shipyard. An easy-to-use controller manages alarm and protection functions, displays and monitors engine sensor levels, logs important events, and communicates to the pilot house.

EMCP BENEFITS

- 100 percent Caterpillar designed and supported
- Engine monitoring
- Start/stop run controls
- Modbus communication
- Generator monitoring
- Safety shutdown
- Alarm systems
- Digital LCD display
- Troubleshooting codes

MCS PACKAGING BENEFITS

- Certified by major classification societies
- Packaged by Caterpillar at the factory
- Backlit display with graphical capability
- Modbus and J1939 CAN interface support
- 12 digital input channels; five analogue, expandable to 11
- Engine hour meter with service interval indication
- Pre-lube functionality with timer interval

EMCP Display

- Optional remote panel operates up to four auxiliary engines
- Supports seven languages
- Start and backup battery voltage monitoring and alarm set point

MCS Display

PRODUCT SUPPORT

- More than 1,700 dealer locations and 400 Authorized Marine Dealers worldwide
- Single point of contact for the entire package
- Extended Service Coverage

At the end of the day, it's about getting the job done.

Caterpillar marine generator sets provide the power you work with and live by. So everything about them is built to help you do your job, whether that means bringing in a catch or cargo, or simply providing a pleasurable day on the water.

- Caterpillar marine generator sets are manufactured in ISO 9001 certified facilities.
- Rugged construction and advanced design provide longer service life to overhaul.
- Caterpillar Marine Power is your single source for auxiliary and propulsion engines.
- Multiple ratings are offered to meet your vessel's electrical power needs.
- Caterpillar marine generator sets are approved by major marine classification societies.
- All Cat generator sets are fully engineered with robust base mounting for ease of installation in the vessel engine room.
- World-class service and financing is available from your Caterpillar marine dealer.
- Caterpillar worldwide parts network provides unmatched parts availability.
- All components are supported by Caterpillar.

It's all about getting the job done and, when the time comes, getting to port safely. So it's always a perfect day for the rugged reliability of Caterpillar Marine Power.
